EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Paul C. Remus on March 7, 2005.

The application has been amended as follows:

IN THE Claims

Claims **13-22** have been cancelled.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

Claims **1-12** are allowable over the prior art of record because the prior art does not teach or suggest a polarizing process comprising the steps of moving, propagating, containing and immersing as presently claimed, esp., the step of moving a flowing mixture of gas, at least containing a polarizable nuclear species and vapor of at least

one alkali metal, with a transport velocity that is not negligible when compared with a natural velocity of diffusive transport.

The prior art does not contain any language that teaches or suggests the above.

Ryan et al. teaches an up-welling of gases (col. 4, lines 6-13). The word "up-welling" does not imply any velocity. It only implies a direction. Thus, *Ryan et al.* do not teach moving a flowing mixture of gas, at least containing a polarizable nuclear species and vapor of at least one alkali metal, with a transport velocity that is not negligible when compared with a natural velocity of diffusive transport.

Furthermore, the fact that the present invention flows gas faster than the velocity of diffusion allows it to operate as a single-pass sequential process, in which different stages in the polarization process happen at different locations in the polarizing apparatus and those locations (and polarization steps) are not revisited by the same sample of gas.

Therefore, a person skilled in the art would not have been motivated to adopt the above conditions, and a prima facie case of obviousness cannot be established.

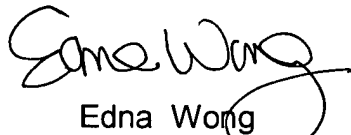

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
